

No:	Part No:	Description:	Price:
1	CHT101A	Radiator - Outright Sale (HIGH PERFORMANCE): BN1 - BN2 Manufactured by A.H. SPARES LTD these accurate reproductions of the original radiators give an extra 25% cooling capability without any noticeable change in design to the original. Fitted with a special core developed by ourselves with extra cooling tubes and fins, this is a very worthwhile upgrade to your cooling system.	£495.00
2	CHT101C	Radiator - Aluminium: BN1 - BN2 These aluminium radiators are made from the same press tooling as our uprated brass radiators CHT101A so they look the same as the originals. They have the same cooling benefits as the uprated radiators but giving a weight saving of around 5kgs. They are also made with the correct fittings so that the original temperature gauge can be used.	£745.00
3	CHT102A	Radiator - Outright Sale - High Performance: BN4 - BJ8 Manufactured by A.H. SPARES LTD these radiators give an extra 25% cooling capability without any noticeable change in design to the original. Fitted with a special core developed by ourselves with extra cooling tubes and fins, this is a very worthwhile upgrade to your cooling system.	£374.95
4	CHT102C	Radiator - Aluminium - High Performance: BN4 - BJ8 These aluminium radiators are made from the same tooling as our uprated brass radiators CHT102A so they look the same as the originals. They have the same cooling benefits as the uprated radiators but giving a weight saving of around 3kgs.	£525.00
5	CHT110K	Top Hose - Kevlar: BN1 - BN2	£13.50
6	CHT111K	Top Hose - Kevlar: BN4 - BJ8	£11.50
7	CHT112K	Bottom Hose - Kevlar: BN1 - BN2	£14.95
8	CHT113K	Bottom Hose - Kevlar (Without Heater): BN4 - BJ8	£18.50
9	CHT114K	Bottom Hose - Kevlar (With Heater): BN4 - BJ8 Made in the UK from Kevlar reinforced rubber these hoses are much stronger and able to cope well with the temperature fluctuations for extended life.	£20.95
10	CHT143	Fan - Cooling (6 Blade - Metal): BN1 - BN2	£54.95
11	CHT146	Fan - Cooling (6 Blade - Metal): BN4 - BJ8	£52.50
12	CHT146A	Fan - Cooling (5 Blade - Plastic): BN1 - BN2	£37.50
13	CHT147	Fan - Cooling (5 Blade - Plastic): BN4 - BJ8 These five bladed harmonically balanced cooling fans are especially manufactured for the Austin Healey and requires no modification to fit, unlike some others on the market. They originate from a modern design that greatly reduces noise, increases air flow and will stand up to higher revs.	£36.50

No:	Part No:	Description:	Price:
14	ACC204	Revotech Fan & Fitting Kit (Positive Earth): BN1 - BN2	£229.95
14	ACC205	Revotech Fan & Fitting Kit (Positive Earth): BN4 - BJ8	£229.95
<p>These electric fans are the best method of stopping your car from overheating in traffic. It comes with a fitting kit, which allows the fan to be mounted directly onto the radiator core to give maximum cooling.</p> <p>Also included is an adjustable thermostatic control to allow you to adjust it to your cars requirements. It will not steal horsepower from your competition car.</p>			
15	ACC206F	Electric Fan Fitting Kit: BN1 - BJ8	£12.25
16	LUB250	Castrol Anti Freeze - 1 Litre	£9.25
<p>Castrol antifreeze is a mono ethylene glycol based coolant with excellent corrosion protection for all metals. Protects the cooling system at high and low temperatures and is compatible with all rubber, metal and plastic components found in the cooling system.</p>			
17	LUB175	Millers Extra Cool - 250ml	£10.65
<p>Millers Concentrate multi-metal corrosion inhibitor and coolant enhancer. USER BENEFITS:</p> <ul style="list-style-type: none"> • Helps to maintain coolant flow in radiators. • Reduces deposit formation in radiators. • Provides powerful corrosion protection for all metals found in engines e.g. aluminium, cast iron, etc. • Helps reduce coolant temperature by up to 15°C. 			
18	CHT129C	Aluminium Water Pump Pulley: BN4 - BJ8	£53.95
<p>To help prevent the fan belt from jumping off during high revs these pulleys are designed with a deeper "V" for the belt to run in.</p>			
19	CHT141	Narrow Belt Conversion Kit: BN1 - BN2	£185.00
<p>By converting to a 3/4" fan belt, the problems of noise and vibration at high revs is minimised. Plus to help prevent the fan belt from jumping off these pulleys are designed with a deeper "V" for the belt to run in.</p>			
20	LUB350	Evans Classic Cool 180 - 5 Litre	£54.00
20	LUB351	Evans Classic Cool 180 - 2 Litre	£24.95
<p>A waterless engine coolant specially formulated for classic vehicles. Classic Cool 180° protects engine cooling systems from -40°C to 180°C.</p> <p>The unique properties prevent many of the problems associated with waterbased coolants such as corrosion and overheating.</p> <p>No Water - No Pressure No Water - No Overheating No Water - No Corrosion No Water - No Liner Pitting No Water - More BHP.</p>			
20	LUB352	Evans Prep Fluid - 5 Litre	£33.25
20	LUB353	Evans Prep Fluid - 2 Litre	£16.00
<p>A preparatory engine flush for use with Classic Cool 180° and Vintage Cool 180°. Formulated to hygroscopically absorb water, whilst removing loose dirt and scale from your cooling system.</p>
